To whom it may concern,

AUG 1 2 1999

Please note this letter as a  
response to the revised CALFED Plan.  
It has come to my attention  
that these measures would  
note be appropriate.

I enjoy river rafting and  
<sup>want</sup> ~~want~~ my children to be able  
to do the same thing.

We cannot solve ecological  
problems caused by dams &  
diversion, by building more  
dams & diversion.

I hope you understand  
my reason for concern!  
Thank you for your cooperation
